How to Prevent Pneumonia How to Prevent Pneumonia.

You have good reason to fear an attack of pneumonia when you have a severe cold, accompanied by pains in the chest or in the back between the shoulders. Get a bottle of Chamberlain's Cough Remedy and use it as directed and it will prevent the threatened attack. Among the tens of thousands who have used this remedy for colds and in grippe we have yet to learn of a single case that has resulted in pneumonia, which shows that this remedy is a certain preventive of that dangerous disease.—Adv.

School fights are just now engrossing the attention of a large number of persons in St. Louis County. The fights have been developing for a month, increasing in intensity every day, and will be settled at the annual elections on the first Tuesday in April.

The bitterest fight is in the Ferguson School District and was precipitated by the attempt of the people of Kinloch Park to divide the district and form a new district in their section of the county.

Another contest is developing on the Manchester road near Ellisville. There are three districts in the vicinity—the Alt, the Oak Ridge and the Sappington—and a proposition has been made to consolidate them and build one central high school. The plan is meeting with bitter opposition has been made to divide the district and build a new school in Ivory. The proposition has split the district into factions. Business Men's League to Urge Improvement of Streets in Shopping District.

ABATES NOISE OF TRAFFIC.

Merchants and Property Owners Will Discuss Means for Obtaining Better Pavement at Meeting of League March 25.

If a movement started by some of the downtown merchants is successful, asphait will be laid over the granite streets in the shopping district between Third and Twelfth and Market and Washington, providing a smoother surface and doing away with much of the noise that is experienced now. On next Tuesday evening the subject will

be taken up by the Business men's League at a general meeting of its members, and some plan is expected to be devised by which the improvement can be made. It is ndorsed by merchants and property owners. but no united effort has ever been made to carry out the project. Some years ago the granite pavement be-

came such a nuisance around the Court-house square that the Circuit Judges ordered it removed and block paying substi-tuted. On account of the noise, the granite paying was also removed from the Imperial heater, on Tenth street, between Pine and

oughfare has become a serious problem, and all of the merchants are asking for its abatement. Those who have given the matter consideration say that the expense of construction is not great, and that the saving in the cost of cleaning, as between asphalt and granite paving, would soon pay for the outlay made.

Similar resurfacing has been done in New York and asphalt is taking the place of granite in the thoroughfares where the heaviest travel is experienced. It is found cheaper to repair, easier to keep clean and more lasting when the granite blocks are used as a foundation. Several St. Louis business men have inspected the improvements there and have made inquiries as to the practicability of laying the asphalt over the granite with the result that they are satisfied that it can be done.

When the Imperial Theater company and Messrs. Nugent and Frank made the improvement about their property, the granite blocks were first removed and the grade lowered in proportion to the thickness of the asphalt to be applied, then the blocks were replaced and the surface laid over them. The asphalt has proved satisfactory in every way; it makes an even driveway, does away with all noise and is always free from dirt.

Bishop Warren consecrated Miss Weltz a deaconess. Miss Nettle Prather of Chicago addressed the morning session. Doctor Hunan Stuntz from Manila addressed the conference. He denied the rumors that any partiality was shown between the Catholics and Protestants by Governor Taft. The Board of Stewards reported \$2.679 raised for worn-out preachers and that amount was distributed.

The question of publishing the minutes brought forth much discussion and had been made the order of the day for 10 o'clock. E. B. Little of Maryville, Doctor J. T. Pierce of Tarkio and C. J. Warner of Westboro were made a Committee on Publication to assist Secretaries C. O. Mills and W. F. Burdis, The minutes will contain the sermon of F. J. Ferrill.

No one gathering thus far has called forth more interest than the lecture of Doctor Matt Hughes of Independence Avenue Church of Kansas City. His subject, "The Art of Living," was characteristic, He made a pungent criticism on Rudyard Kipling, and said he would rather be one to make possible the "Light Erigade" than to be a Tennyson to write it.

The afternoon hour was occupied with the closing address of Doctor G. W. Gamble of Topeks, Kas, He demonstrated to his listeners that the Christian Sabbath was the Elbie day, as against the Seventh Day Adventists.

DEATH IN A BURNING BARN Boy Tried to Rescue Stock and Lost His Life.

REPUBLIC SPECIAL.

He had succeeded en releasing a portion of the stock when he, in some way, became caught in the barn and was unable to release himself. His cries for help aroused the rest of the family, but when they reached the barn it was one sheet of fame and they were unable to resoue him. MANY REPUBLICAN CANDIDATES

Applicants Seek Indorsement-Colonel Kerens for W. L. Morsey.

New candidates for the vacancy on the Board of Election Commissioners caused by the death of William A. Hobbs, are appearing every day. Among those mentioned yesterday were William K. Patrick, F. M. Sterrett, and Charles R. Graves. The two first are old soldiers, and have many friends.

Graves was formerly the private secretary of Chauncey I. Filley. It is said that he no sooner began getting indersements than the Globe-Democrat put a quietus on any ambitions which the former friend of its enemy might have. Graves is one of the recent converts to the St. Louis Republican Club. Few of the prominent members of the club have favored him.

According to the statements of well-informed Republicans, who are close to National Committeeman Kerens, he has indorsed W. L. Morsey for the United States marshalship. Kerens is opposed to Weinbrenner. It is said that the National Committeeman would rather have the marshalship go to the country rather than have Weinbrenner secure it. Morsey's success would materially strengthen Kerens in the country districts. Nathan Frank, Henry C. Grenner and Louis P. Aloe, though friends of Kerens, have indorsed Weinbrenner and have announced that they will "stick."

YATES FACTION WAS DEFEATED Dawes Will Probably Be Indorsed by McLean County Republicans.

REPUBLIC SPECIAL

Bloomington, March 15.—McLean County
Republicans today dealt the Yates-LorimerHopkins combination the most severe blow
it has yet received. The anti-administration forces, under the leadership of John A
Sterling, candidate for Congress in the new
Seventeenth District, swept the county by
a majority estimated at 1,700, and will have
a majority of at least 100 delegates in the
convention of next Tuesday.

The Yates element endeavored to rally
around Captain J. H. Rowell, the opponent
of Sterling for Congress, but there was net
enough of them, and Sterling will be the
candidate from McLean, and the convention will not instruct for Hopkins. Dawes
will probably be inforsed, as he is a great
favorite in this county. REPUBLIC SPECIAL
